Patient Access - Overview

What is Patient Access?

With Patient Access, you can now access your local GP services at home, work or on the move — wherever you can connect to the internet. What's more, because Patient Access is a 24 hour online service you can do this in your own time, day or night.

- **Book/cancel an appointment.**
- **Order repeat prescriptions.**
- **Change your mobile number/ email.**

English system (slightly different) allows patients to view medical record and send secure messages etc.

Before going live!

- Review emis help guides – contact local support if required.
- Make sure your system is activated.
- Contact a neighbouring practice if already live.
- Discuss with the entire team pros & cons.
- Think about the appointments that will be available.
- Think about terms & conditions.
- Advertising.
- Pilot and tweak.
- Roll out.

Time to get started...

Don't start like this

Be more Zen

Introducing Patient Access to Patients Advertising

ONLINE APPOINTMENTS & PRESCRIPTIONS

Emis Access allows you to manage routine appointments online using your PC, laptop, tablet or smart phone. Now you can also order repeat medication using this service.

If you require another type of appointment (emergency/nurse/telephone) or special request item on prescription please call the surgery as normal.

If you have already registered for our online services you can simply log into your account and start using the repeat prescription service.

If you have an iPhone or android you can download the app called **Patient Access** and manage your appointments/prescriptions on the go.

If you are interested in registering for this service please speak to a member of staff at reception (*Terms and Conditions apply*)

Did you know?

You can now book your appointment and

request repeat prescriptions online

We are pleased to announce that Northcote Surgery now offers an online facility for you to book appointments and to request your repeat prescriptions.

Online Appointments

You can book routine GP [appointments online](#) up to 2 weeks in advance. All other appointments i.e. emergency, telephone consultation and nurse appointments will still have to be booked through the reception team.

Online Prescriptions

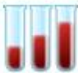

You can also order your [repeat medication](#) when it is due for renewal. If you require any other items or wish to discuss a change to medication please call the surgery as normal. Please allow 24 hours for the team to process your request. **Please note that not all prescriptions are available on repeat - some items remain on special request due to GP monitoring.**

Our Practice Guidance for EMIS Access

Dear Patient

Before you begin to use EMIS Access we would appreciate it if you could read the following guidance regarding the booking of appointments and ordering prescriptions online. Please keep this page of the document for your own reference.
EMIS Access is for routine appointment booking only. If you require an emergency appointment please contact the surgery by telephone, the on call duty doctor will call you back to triage the emergency and allocate a suitable appointment if necessary.

Reasons for Appointment

We would ask that you enter a reason for your appointment in the box provided when booking an appointment. This gives us the opportunity to ensure that it is appropriate for you to see the doctor rather than a nurse. Please be assured that all details entered are secure and cannot be intercepted. Our practice has a strict confidentiality policy.

Missed Appointments

Please let us know if you will be unable to attend an appointment that you have booked online. Either contact us by telephone to cancel it or cancel it online. This will allow us to offer the appointment to another patient. We realise that there are valid reasons for not attending, however we will be monitoring such occurrences on a regular basis.

If you miss an appointment we will remove your facility to use EMIS Access, however you will still be able to book appointments with our receptionists.

Nurse Appointments

Due to the nature of nurse's appointments we are unable to offer them online at the moment.

Doctors Appointments

Please ensure that you book the appointments appropriately. If you are unsure as to whether it is appropriate for you to see a nurse or a doctor please contact us by telephone. If you feel that you do not need to see the GP but would benefit from a 5 minute telephone consultation this is also available on request by telephone to the surgery.

There is a Minor Illness clinic lead by one of our nurses who can help to assist with a number of problems. Please visit http://www.northcotesurgery.com/minor_illness.aspx for details.

Repeat Prescriptions

This application allows you to order repeat medication only, any other medication should be ordered through the reception team as normal (please bare in mind not all types of medication are available on repeat).

- Log into your Access account and scroll down to the Repeat Prescriptions.
- Select 'Make a request' and you will see a list of your current repeat medications which you can select from. There is also a comment box underneath where you can type any messages you have relating to the medication. You can also use this to enter the chemist name that collects on your behalf.
- Click 'Submit request', check the details are correct and then select 'Confirm'. **Please allow 24 hours for staff to process your request.**
- Log into your account and scroll down to Repeat Prescriptions again where you can check the progress of your request.
- If the request has been accepted your prescription will be available for collection at the surgery around 3pm the following working day from date of order or at your regular chemist.
- If the request has been declined by the GP there will be a comment as to the reason why. This could be because the medication is not due for renewal or the GP may wish to see you for review before the medication will be issued. If this is the case please book an appointment online or call the surgery.

Inappropriate Use

We will be monitoring the use of this service and we are sure that you will find it most useful. If however, we find that any users are abusing the service, we will revoke your access to the service and you will have to liaise with our reception team for services.

Please note access to this service can be withdrawn at any point without notice.

Registration information for: Forenames Surname

Please keep this form safe until you have registered your account and then destroy it. In the event that this form is lost or stolen before completing the registration process, please contact your practice immediately so that they can generate a new one for you.

Enter the information exactly as it appears on this letter, or registration will not be accepted.

How to register

Before you can use your Patient Access account you will need to register the account. The steps below will guide you through the process.

Go to Web Address

Click on **Appointments**

Select Online Appointments

Click the link 'Access the online appointment system'

Click on the green 'Registration' button then follow the registration process

Answer **yes** to the question 'Have you received a registration letter from your practice?'

Enter the **registration details** shown below and click next.

| | |
|-----------------|----------------|
| PIN | Web Pin number |
| Practice ID | Web CDB number |
| Access ID | Web Access ID |
| Your CHI Number | CHI Number |

Enter your surname, date of birth and choose a **password**. You will use this password to sign in. Click next.

Enter your **contact details** (optional) and choose some **security questions**. Click next.

You have now successfully registered. Note down your **User ID**, you can now use this to sign in along with your chosen **password**.

How to sign in

Once you have registered for the service you can then sign in. You will need to enter the following information each time you use the service:

User ID (given to you at the end of the registration process)

Password (chosen by you during the registration process)

If you forget your sign in details

You can use the Forgotten Password and Forgotten User ID features to help recover your details. Please note: Your practice must have your e-mail address and mobile number stored to use these features. You can also add these during the registration process and after signing in.

Alternatively you can contact your practice to generate a new letter for you. With the new letter, you will need to **follow the whole registration process again**, before signing in with new details.

The pin document can be used with the following service provider(s):
Patient Access Providers

Please note that the pin will expire after: PIN Expiry Date

Read Codes

We created read codes for search purposes:

EMIS PCS - LAN Edition (Northcote Surgery)

[File](#)
[Help](#)

[Tasks 11 0](#)
[WFTasks 00](#)

Pros

- Can be accessed on the go – PC, laptop, tablet or smart phone.
- Patient can feel empowered/more in control of their appointments and medication.
- Can order/ make appointments 24 hours a day.
- Patient can add comment when ordering prescription i.e. chemist/ special request/ check status.
- Safer – no mishearing of medication requests on answering machine/ telephone call.
- Patient can update contact details mobile number /email.
- Less incoming calls to surgery.
- Free up reception time.
- It is not a burden to use.
- Training does not take long.

Pros

Cons

- Setup process takes time – appts to be shown/ check regularly for new slot types.
- Patient can only view and book routine GP appointments (depends on practice).
- Only repeat medication is displayed for ordering.
- Some patients are unaware of the acute/repeat prescribing system and assume that all medications are repeats and should be available online.
- The comment box in prescribing module can be misused if patients enter text not relating to repeat medication.

Statistics

- 400 patients registered for Patient Access.
- Average 20 appointments made per week.
- Average 30 prescriptions ordered per week.
- Figures increasing slowly.
